I'm an Acquia Certified Drupal Front-End Developer and Sitebuilder, and most of the client work I have done for the past 5 years has revolved around Drupal. My personal area of interest is JavaScript, and in my free time I frequently dabble with vanilla Javascript, the Node runtime, Angular and React.

Webdevelopment is not just a job, it's a passion that I'm constantly working on improving and expanding by reading and experimenting.

Professional experience

Novation
www.novation.be

After my internship, I was offered a job at this startup webdevelopment agency. Since february 2012, I've helped grow Novation to a flourishing Drupal shop. As more people joined the team, I've taken up the task of team lead. In this position I have worked on streamlining our development process by automating our Drupal setup and Front-end compilation/optimization.

FEBRUARY - JUNE 2012
Internship

JUNE 2012 - NOW
Drupal & Front-End Developer

JANUARY 2016 - NOW
+ Team Lead

Zorro
www.zorro.be

In a partnership between Novation and Don Diego I've freelanced over a three year period, both remote and on-site for various clients including Telenet, Deloitte, Unilever and Renault.

MAY 2012 - DECEMBER 2015
Freelance developer
